Report of the Programs of Jyoty Marg Trust 2019-2020

Jyoty Marg Educational and Charitable Trust with the objects to render educational and charitable services to the people at all levels, without considering the caste, creed, community or religion solely for philanthropic purposes and not for purpose of profit and that too with special privileges permitted to the Minority Community by the Constitution of India, started its work with the registration of the trust deed on March, 1, 2019. The settler and trustees had several sitting together to plan the programs to meet the purpose and aim of the Trust. Following are some of the programs that we could conduct in theses few months.

- 1. Tuition and Animation programs for School dropout children:** Understanding the need to take care of the dropout children of Khandamal and Kolhandi district, Jyoty Marg Trust started Non formal education programs in these districts with the help of local people of these areas. Children are given two hours of class room sessions and one hour in the field to have the direct experience of the class room knowledge. It makes the teaching more interesting and more students are attracted to the program

At present we have 26 Non formal education centers in Rampure, Balliguda and Tumbudibandha blocks of Khandamal and Kolhandi districts. Almost 786 students are getting the profit out of this program. (361 students from Balliguda and 425 students from Rampur). 26 teachers are employed in the non-formal education program of the centre.

Awareness Classes for Students and Parents: Awareness classes for the students and their parents are also conducted by the centers. The importance of education, time management, respecting the elders, cleanliness, importance of health are some of the subjects dealt with the awareness programs. The expertise from different strata of life extended their good mind to meet the task realized.

Scholarship Programme: Under the Santhome Scholarship Program, Scholarship is given to the eligible students of different villages for the academic year 2020-2021. We are also planning to provide better schooling and hostel facilities to the brilliant and brightest students from the villages.

- 2. Training for Animators:** Fifteen local leaders of Khandamal and Kolhandi districts were trained by the Jyoty Marge Trust to help in the educational and charitable activities of the trust. These animators will be taking the leadership in conducting awareness programs in the villages on health, wealth, nature, agriculture, hygiene, etc. We are mainly concentrating on Southern part of Odisha and these animators started their work by visiting the villages to make the survey and feasible study to know the people and their needs.

- 3. Awareness Programs for Women:** Awareness programs for women were conducted in three places to teach them about Self Help Groups and need of financial stability in life. Participants were given class room sessions and sharing sessions to understand more about the financial earning and budgeting. The session helped the participants to understating the need of saving the money for the future. They were also given awareness on skill training that will help them to have financial stability. This kind of training will be extended to deferent part of Odisha in coming months.

Skill Training Program for Women: Skill training program for the unemployed women is yet another concern of Nirmal Jyoty. The first batch of student will be completing their tailoring course from an authorised institute in Bhubaneswar within a couple of months. We are also planning to send more women for the training programme. We believe that these will help them to stand on their own legs.

4. Medical Camp and Medical Awareness Programmes

Nirmal Jyoti Social Welfare Centre, Balliguda is engaged in providing the people with medical facility in the interior villages. In the past year we conducted two medical camps in two different villages of Balliguda block. Along with the medical camp we also conducted the medical awareness seminars and social awareness classes. We are planning to conduct more medical camps in the coming year and also to continue to do the follow up.

Medical Aid. Medical aid is given to the needy people of different villages. Providing medicines and other nutrition for the bedridden patients are also our area of concern. All these programs aim at building a people with sound health.

5. **Community Care Centers (CCC):** Majority of villagers of Khandamal Kolahandi districts stay in the forest and it is very difficult for the members of the trust to reach to them on a daily basis and they also find it difficult to reach to the center for the social and education and charitable programs of the trust. So we construct small community care centers (CCC) to gather the villagers for the educational and social programs. We have village animators to coordinate the programs of the trust for that particular village. As per the number of villagers we decide the size and interiors of the CCC. Villagers cooperate in the construction through their labor and land for the construction. This centre will be used for the training programs, Non formal Education programs, integrated development programs like skill development trainings, medical camps, etc. At present we are constructing seven such CCCs in Baliguda and Rampur blocks.

The Jyoty Marg Educational and Charitable Trust is happy to present this report and we have miles to go in our dedicated and committed service to the people in the coming years. We do believe and hope to achieve the purpose and aim of the trust with the help of dedicated committed service team of the Trust in Odisha.
